

## Seminar

We are very excited to be hosting a seminar with Barb Davis  
September 18 & 19, 2010

Barb is a 6 time AKC Agility World Team Member and has won 3 National Championships. She was a Mathematics Instructor for 21 years at the high school and community college level. These combination of skills provide for excellent instruction for students of Dog Agility. Here's a little bit of information on Barb. Check out her website to learn more. [Barb Davis, Stride Ahead Agility www.strideaheadagility.com](http://www.strideaheadagility.com)

My first sheltie came to own me in 1975 and they have run the household ever since. I have had several breed champions and Shimmer's father Zinger won the coveted Best in Show. I had the 7th sheltie to earn both a breed championship and the obedience championship, "OTCH". I also have my judge's license for shelties but now rarely show in breed or obedience due to my agility addiction!

My kennel name is "Strathspey" which is a county in Scotland as well as a type of fiddle tune. The focus of my breeding program was great temperaments and bodies, perfect for agility! My dogs and I were quickly addicted to the fun, freedom and adrenalin we found in the agility ring. My dog's Shimmer, P.J. & Rock-It have all one national championships and I have had the honor of being on the World Team 6 times with Shimmer, Aspen and Rock-It. This sport has truly changed our lives as we have traveled all across the good ol' USA and in Europe, having amazing experiences and making friends throughout the world.

I made the transition in 2007 to teaching agility full-time after a 15 year career of teaching Mathematics at the community college level. I love to teach and the many years of breaking down and explaining the details of Mathematics, has been a huge asset to my teaching of agility. I love working with people and their dogs and being part of helping them grow as a team. It makes me glow inside when a student I have worked with comes running up after a run beaming because of the success they are experiencing and thanks me for the help I gave them. One of the greatest rewards of teaching is hearing of, or seeing that success and how both dog and handler enjoy the agility experience more.

Registration forms are available at [www.q-ballagility.ca](http://www.q-ballagility.ca)
